LETTER FROM THE PRESIDENT

Dear Members,

Thank you for your unwavering support in 2019! In a year that featured a dynamic range of issues across the breadth of the government market, the Coalition rose to the occasion on behalf of its members, facilitating engagement with stakeholders in the procurement community on core business-affecting issues, including commercial best practices; efficient contract administration; e-Commerce implementation; cyber and supply chain risk and security; the MSPV; regulatory burden reduction; and Schedules Modernization. Through it all, we served the community with thought leadership in furtherance of the common interests of government and industry: support of the nation and service to the citizen.

In the pages that follow, you will see the Coalition's year by the numbers. Impressive as those raw numbers may appear, their significance is rests in what they represent. The many meetings, conferences, training sessions, and webinars provided members with timely and actionable information and insights into key procurement policies, programs, initiatives, and reforms. To this end we are very appreciative of the time and input of acquisition professionals from across government, including representatives of OMB, OFPP, ODNI, DSS, DHS, DHA, DLA, DPC, GSA, DCMA, the VHA, the VA NAC and SAC, the Air Force, the Navy, the DoD and others who spoke to members about their program, policies, and priorities.

This year also featured the kick-off of initiatives that immediately were popular with Coalition members. The Business and Regulatory Issues Committee (BRIC) was launched as a platform for information exchange about the government legislative and regulatory ecosystem. The Coalition also held its first Cyber and Supply Chain Security Committee meeting where the Defense CISO and representatives from the NCSC and DCSA discussed the anticipated CMMC supply chain risk issues and mitigation. In addition, the Coalition launched a valued information weekly to complement its popular "Friday Flash." The "Tuesday Tracker" provides a timely update of the latest information relating to Federal Procurement, including a Regulatory Tracker of relevant open FAR and DFARS cases.

Also, in 2019, through your continuing generous support, the Coalition's scholarship fund at The George Washington University (GWU), grew to over \$137,000. As you know, the scholarship provides support to deserving veterans studying federal procurement at the GWU Law School. This year marked the naming of the third recipient, Purple Heart Homes.

Whether it be the "FAR and Beyond" blog; the amicus briefs filed on critical procurement issues; letters, testimony, or regulatory comments on issues impacting members, the Coalition's success is your success. The Coalition simply could not exist, let alone succeed, without you, our dedicated members. It is your engagement, leadership, and commitment that has positioned the Coalition as a key thought leader in federal procurement policy. In this regard, I would like to thank our Committee and Subcommittee Chairs, Board of Advisors, and Board of Directors for their contributions to our collective efforts to promote common sense, commercial best practices across government!

Likewise, I want to recognize the outstanding the Coalition staff! Their dedication to excellence has made a fundamental, positive difference towards common sense procurement policy and programs for members, government, and the American people.

In closing, I hope you find our annual "Year in Review!" informative and enjoyable. Please rest assured that, as we face the upcoming election year, the Coalition will continue to provide the information, insights, substantive analysis, and thought leadership to support your efforts to compete and offer best value products, services, and solutions to government customers.

Thank you again for your strong support and participation!

Sincerely,

Roger Waldron, President

ADVANCING THE MISSION

Promoting Common Sense in Government Procurement

The Coalition promotes “Common Sense in Government Procurement” on behalf of our member companies. In 2019, the Coalition demonstrated its domain expertise and thought leadership related to a broad scope of acquisition policy matters. Among the key policy and program specific issues the Coalition addressed were:

- Promoting an efficient Consolidation of GSA’s Schedules program
- A balanced approach to the implementation of Section 846 of the 2018 NDAA and GSA’s Commercial Platform Initiative Pilot
- Adoption of an “Unpriced” Services model for GSA Schedules
- Promotion of an efficient and effective VA Medical/Surgical Prime Vendor program, consistent with commercial best practices, to the maximum extent practicable
- Increased partnership between the VA, DHA, and DLA on strengthening the supply chain that supports veterans’ healthcare
- Effective cyber and supply chain security requirements (e.g., Section 889 and Cybersecurity Maturity Model Certification)
- Reform of Federal Supply Schedule pricing policies, especially the Price Reductions Clause
- Strategic implementation of Category Management Government-wide, as well as industry input into the identification of Best in Class contracts
- Adoption of a new VA business process to eliminate outstanding payments for prosthetics based on Section 8123
- Industry representation on the Future of FedMALL

In 2020, the Coalition will continue to speak for our members on these issues and ensure that our policy efforts are supported by quality information in our online publications and training on such topics as the Schedules Consolidation; GSA e-tools, like beta.SAM.gov; the partnership between the VA and DoD; and the next generation of GWACs and MACs, like CIO-SP4 and the follow-on OASIS contract. We will also be highly active as GSA moves to launch its Commercial Platform Initiative pilot, which could be highly influential in shaping the future of Federal procurement.

SUPPORT FOR OUR VETERANS

On August 21, 2019, the Coalition hosted the 7th Annual Joseph P. Caggiano Memorial Golf Tournament. Dedicated in honor of our good friend and colleague, the tournament honors Joe Caggiano, who was not only a 23-year veteran of the Federal contracting marketplace, but a naval veteran as well. The tournament's proceeds support The Coalition for Government Procurement Endowed Scholarship Fund for a qualified veteran pursuing a master's or law degree in Government procurement at The George Washington University.

We are pleased to announce that a total of \$12,000 has been raised for the scholarship as of 2019. There has been a total of over \$135,000 raised over the last four years. This achievement would not have been possible without the participation of our members at the tournament and their sincere generosity in support of the scholarship fund.

We hope that everyone will be able to join us on August 26, 2020 for next year for the Seventh Annual Joe P. Caggiano Memorial Golf Tournament at Whiskey Creek in Ijamsville, Maryland.
